

# JRCALC PLUS

Version 2.0

COMING SOON

Same trusted app, better features

Developed in response to customer feedback and enhancing technology, Plus Version 2.0 has a positively refreshing user-friendly update with a natural familiarity to the existing version.

## KEY UPDATES

- **Clear Labelling for Updated Guidelines**  
Includes the ability to acknowledge the update in context.
- **Keyword Searching**  
An updated search index has been included to help improve search results.
- **Filter and Search Other Tabs**  
The Guidelines, Meds and Algorithms tabs can be searched and filtered.
- **Speak Content**  
You are now able to select text within guidelines to enable the 'Speak Content' feature.
- **Customisable Dashboard**  
Rearrange your dashboard cards to suit you.
- **Dark Mode**  
Relieve your eyes with dark mode. This can be turned on manually or set to automatic within your device settings.

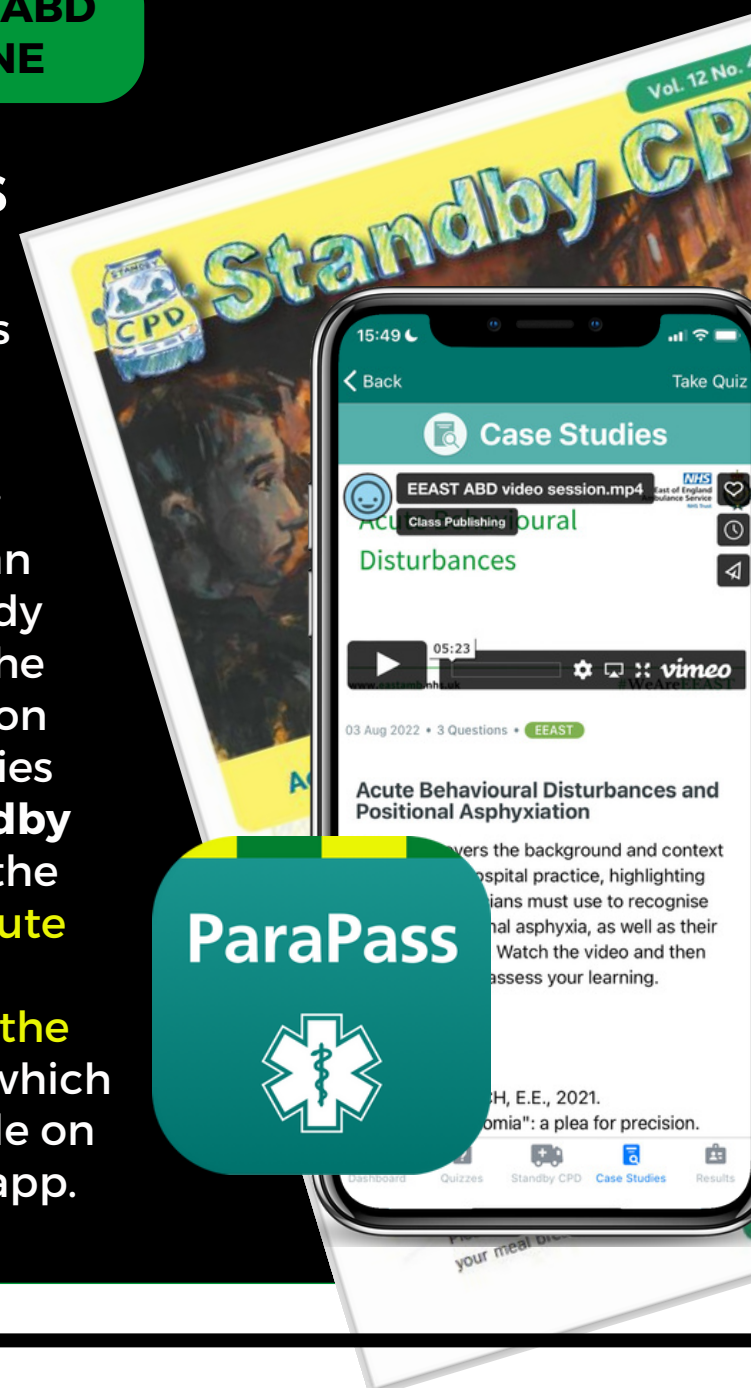

Check out the latest Guidance on Acute Behavioural Disturbance.

GO TO THE ABD GUIDELINE

## ParaPass

Additional ABD resources can be found on the **ParaPass app**.

You can find an ABD Case Study at the top of the screen, when on the Case Studies tab, and **Standby CPD** features the April issue '**Acute Behavioural Disturbance - the ABC of ABD**', which is also available on the ParaPass app.
