## learning environment at EEAST

### The Training and Education (T&E) strategy agreed a set of overarching goals:

- ✓ Develop a **learning focused culture** across the whole Trust
- ✓ Become a **high quality education provider and a placement provider of excellence**
- ✓ Support the development of a **motivated, skilled workforce** that provides quality care
- ✓ Generate a **positive reputation** for T&E at EEAST which attracts and retains talent

### The T&E strategy developed recommendations for EEAST to achieve the goals, which included:

- 1** Work towards establishing dedicated and **protected time** for all staff to complete training and development
- 2** Improve the quality and offering of **learner supervision** within clinical environments
- 3** Develop resources to support staff with **talent development** and career progression
- 4** Establish **fit for purpose educational courses** that align with workforce plans
- 5** Enhance **collaboration** with universities (e.g. incorporating driver training within student syllabus)
