

# Are you passionate about maternity?

Do you want to learn more about maternity, birth and obstetric emergencies in a pre hospital setting?

EEAST have purchased a number of e-learning licences and are pleased to be offering free access for registered substantive staff to the pre hospital PROMPT e-learning.

The pre hospital PROMPT e-learning update package provides training for paramedic and registered ambulance staff who required to provide emergency maternity care in the pre-hospital setting.

Through lectures and simulated video scenarios, the course will provide background theoretical knowledge on:

- The assessment of the pregnant woman
- Management of a normal birth
- Management of pre-birth, birth and post-birth emergencies

To request access to the pre hospital eLearning provided by PROMPT please scan the QR code below or visit <https://forms.office.com/e/dwc4n1bqZq>
