

Celebrating Our Achievements

SAFE

EFFECTIVE

CARING

RESPONSIVE

WELL-LED

On scene for stroke patients

Overall time from 999 call to arrival at hospital has improved.

Our mean-time has been better than the national average month-on-month, since July 2020.

Biatain Silicone Dressings

The training package introduced by the Trust for skin tears, has been adopted by other trusts as best practice.

Frontline clinicians, of all grades, can access the session via Evolve.

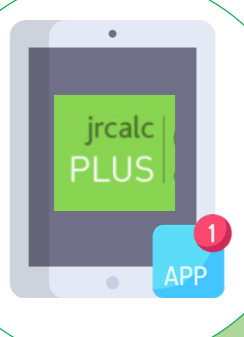

Technology

iPads provided to clinicians give them access to several systems to support decision making.

Audited MPDS and PSIAM software is used in the control rooms to support assessment and care.

**Effective
In Action**

Clinical App

The app is incorporated within the National Ambulance Clinical Guidelines (JRCALC+) and used by all UK ambulance trusts.

All patient facing staff can access the app via the Trust's iPads when on duty.

People's care, treatment and support achieves good outcomes, promotes a good quality of life and is based on the best available evidence.

Mental Health Specialists

Mental Health practitioners are on hand to offer staff advice and support around signposting and assessment.

Research

We have an excellent reputation for producing high-quality research to improve the quality of care and contribute to wider improvements.

Our Research Support Service (RSS) ensures that patients and staff are able to participate in pre-hospital ambulance research.

If you have any further questions, please speak to your line manager or email: CQC.Group@eastamb.nhs.uk
