

CONGRATULATIONS

COMPLIMENTS we have received from mums-to-be about how amazing you are!

“ The paramedics who attended helped me deliver my first baby. Labour came on very quickly and the midwives didn't make it on time, and we definitely wouldn't have made it to the hospital. The paramedics kept me completely at ease, and I could not be more grateful to them. ”

“ Called the ambulance service as I was about to deliver my baby, it came very fast, within a couple of minutes, the 3 guys did very well, they knew what they were doing although seemed more of a women's job, had a lot of patience as I was not very well after the delivery, very, very happy with them, can't thank them enough! ”

“ The ambulance came really quickly. The paramedics were friendly, professional, and made a scary time are good as it could possibly be. They reassured me and kept talking to me throughout. ”

“ The team that was sent out to us on the 1/1/2021 were amazing, Me and my partner could not have asked for a better team to help deliver our first baby at our home. Even now we say how amazing they were and that if we knew who it was or there was a way to find out we would again like to thank them and give them something to say their help was very much appreciated - so to that team - we could not have done it without you, you were amazing, and we thank you so much. You'll always be part of the story of how our son came into this world. ”

“ The ambulance arrived at my house so quickly both times they were called out, and each time I felt instantly calmer when the paramedics spoke to me. ”

“ Very quick to respond, very helpful on phone. All staff made us feel completely safe and well looked after. ”

“ The team were so patient and understanding in an unexpected situation they handled things brilliantly. ”
